

New efficient truck guide, day or night.

- The new Reflecto-Lite™ truck guide is efficient for guiding trucks into proper position at the dock area. Reflecto-Lite material is installed on a unique convex-formed galvanized mounting plate. The Reflecto-Lite truck guide will be installed on the dock wall under the dock bumper, protected from impact. The Reflecto-Lite will offer longevity and service.
- New and unique reflective material, based on a prism effect with up to 900 candlepower, offers day and night guidance for trucks.
- Easily installed, long-lasting, cost-justified, and durable, with a limited five-year guarantee.
- Many of the uses for this unique reflective material are: hallway markings, vehicle striping, door and wall markings, etc.
